JANUARY SALES AT THEIR HEIGHT

Never in the history of F yeate County Merchandising have prices on dependable merchandise been brought the low point that now it les the selling of every remaining item in this big establishment. Stocks in Jinualry were never as large as now local trade conditions and recent monetary stringency coupled with our buying, which was not in the least custailed) ut on the continue almost produgal in the face of panicly trade conditions, have made our stocks the largest and therefor the most describe to choose from in this section of the country.

We we never in the history of our merch indising cut mices to the point that we now quote. It is a matter of vital importance that we clear our stocks of all surplus, previous to inventory.

For this teason we have spried no flor to recomplish a clearance that will be complete.

We have spatied no expense in giving this sale the wildest possible publicity. Forty thousand people will read of these lowest ournes. We haven't space here to publish a list of the price-cuts but tell you emphatically that every article in this is all blishment is now price I at the lowest possible point, with stocks as complete as at present, and if you have inced (in 1 nost of us have) this is the logical time to supply it

A purchase mide at this time not only if hids you also likely saving right now but it materially assists us in our purpose of serving you with bright clean new stocks all through the coming year. A cual advantage.

EASTERN OHIO COAL IS NEARER THE SOUTHERN MARKETS THAN MONONGAHELA COAL.

Not only that but when the extensive government river improvements are completed it will be trebled in value by reason of its lo ation with referone to one of the world's greatest arteries of commerce, the Ohio River. To plunge still deeper into its possibilities, when the Panana Canal is completed I astern Ohio Coal will be one of the first article of commerce to take that short route to the lar bast

NOW CONSIDER THESE FACTS:

We are offering a block of 3,000 a res of Pittsburg No S Coal in Eastern Olno, situated near to both Olno River and B & O. Railroad, at \$33.33 an

We are offering this coal in small or large quantities, giving equal op-portunity to the man with \$100,00 or the man with \$100,000,000

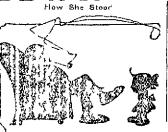

Collis a world wide no essity amount be as long as mankind must have light heat and find. It cannot deprecente in value. On the contrary, considering that the supply is constantly decreasing, its value must merease in

Cold is therefore a sife investment and a sure source of profit to its owner. In Lavette and Washington Courties coal has advanced in the past lew years from \$50,00 to \$1,500 and \$2,500 an acre! This is the same Pittsbing so im we are now offering for 5% 33.
